

LEROMA

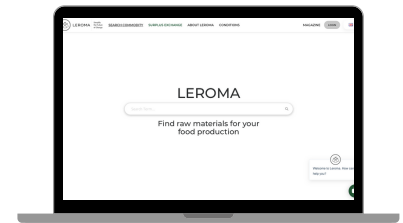

Simplify
the Future
of Change

What is LEROMA?

LEROMA is a B2B online platform for food raw materials that builds a bridge between raw material suppliers and food producers.

1 Commodity Search

- Search engine for food raw materials
- Find professional manufacturers and suppliers with a few clicks for the raw materials you need
- More than 8,000 raw materials in the database
- Saving time, money and nerves

Unique selling proposition:

- Product-specific filters
- Immediately visible certificates and product information

LEROMA GmbH

Foundation: Dezember 2019

Founder: Marina Billinger

Location: Düsseldorf

Vision: global, sustainable B2B platform for food commodities

2 Surplus Exchange

- Marketplace for surpluses & residue stocks
- Reducing food waste
- Savings in procurement through occasional deals
- Low minimum purchase quantities
- Immediate availability due to elimination of production time
- Mediation of residual flows by using a circular economy
